Statement regarding REACH EU directive 1907/2006

Dear customer.

We hereby confirm (to the best of our knowledge), all products produced and supplied by Setiket, exempt products containing material on the Setiket list of SVHC component, comply with all the obligations under REACH EU Regulation EU1907/2006 including the SVHC Candidate list.

The substances listed on the SVHC Candidate list <http://echa.europa.eu/candidate-list-table> are in general not used as intentionally added ingredients. Any trace of these substances in amounts <0,1% (w/w) in the product will come from materials impurities, from the process or any other adventitious contaminant.

The information above is based on currently available information retrieved and received from our suppliers. We have collaboration with our suppliers. The suppliers are obligated to inform Setiket if a substance on the SVHC Candidate list is delivered in any material to Setiket and if changes to the obligation under REACH occur and by that the most current SVHC Candidate list will be used. If Setiket retrieves any information about any change regarding REACH, we will immediately act to this and inform the affected customers. Customers are informed about the presence of an SVHC>0,1% (w/w) in products via a message that is printed on the order-confirmation, invoice and packing list delivered with the products.

The latest list of SVHC can be requested at Sales@Setiket.com. This list is updated to the latest Candidate list that Setiket currently works with.

We are aware that some customers may require individual declaration specified for them as customer or single products produced and supplied by Setiket in regard to the SVHC Candidate list. The investigation of specific part numbers or customer requires a lot of manual work and is very costly for us. Due to this, the management has decided to charge a service-fee of DKK 750,00 / EUR 100,00 per part number declared separately or per individual declaration. In case you want us to investigate specific part numbers, or make a declaration specific for your company, we kindly ask you to list these in an excel spreadsheet and forward this together with an authorized PO covering our service-fee to e-mail Sales@Setiket.com.

We trust that you understand our policy regarding this issue and are looking forward to our continued good cooperation in future.

Best regards

Setiket A/S
